

October Newsletter - Afterlife Study Events and Research Announcements

Hello Everyone!

The work to change humankind by helping large numbers of people have life-changing afterlife communication experiences continues. In this special newsletter, AREI is highlighting events happening in the new future. Every event adds people to the rolls of those who have come a step closer to understanding their place in the universe. We must see these efforts as gradual but steady increases in the humankind's inevitable evolution. The Rocky Mountains grow at the rate of one-third of an inch a year, but this steady growth has resulted in the towering giants we see today. So it will be with humankind's awakening to our true nature through afterlife communication.

Results of Studies of Voices Across the Veil Online Medium Sessions

The Voices Across the Veil Research Project describes the results of offering online communication sessions with a highly skilled medium. The data are from the first three years of the project. It provides evidence that online medium readings are very successful. These encouraging findings suggest more endeavors online to allow people to have afterlife communication experiences will help to change humankind by reaching vast numbers of people. Participants report that the online sessions are slightly more accurate than private or group medium sessions, with 85% saying they received recognizable communication.

**ADVANCING THE SCIENCES
OF AFTERLIFE STUDIES AND
AFTERLIFE COMMUNICATION**

For the benefit of the evolving human race

Groundbreaking research is being done today to advance our knowledge of the afterlife and afterlife communication. The researchers, educators, and developers are largely working without funding. We can dramatically influence humankind by providing funding that will enhance their efforts. We encourage you to donate to them through AREI, a 501(c)(3) nonprofit.
